Tracy:

I will not be allowed to give you access to the site but will be able to walk with you guys along Wayland Street and point out specific items. I may be able to drive a few people around the site in my pickup or give a tour but we will not be able to get out of the truck.

Thanks

Thanks! I can provide hard hats, earplugs or other PPE to the students if that would help with access to any portion of the site or adjoining areas – just let me know.

Yes, stop by the trailer. I may be able to give you a guided tour from the road and answer questions.

Thanks! We're meeting at 8 am, and the group is around 15 students, myself, and Adrian Shelly. If we could walk down the road alongside the site and look through the fence from outside, that would be great.

Thanks!

We are in the process putting a work trailer at the front of the site (Wayland/Griggs). We could meet at that location. I will not be able to allow you to access the site but I could talk with you guys about the site.

Can you tell me about the number of people that you would have coming to the site and about the time you may be coming?

Also, remember that I am a technical person and not an attorney so I will not be able to answer any of the legal questions.

I need to also check my schedule as I believe I may be have a briefing with my management on that day. I will send you another email.

Thanks

Subject: CES Environmental Services Site

Mr. Moore –

Adrian Shelly at Air Alliance of Houston suggested that I contact you. I am a professor at the University of Houston Law Center, and I'm teaching the Environmental Law class this semester. We're studying CERCLA, RCRA, emergency response and criminal enforcement issues, and it would be very helpful for my students to see an actual CERCLA site. The CES Site is located within a few blocks of the law school, and we planned to view it from the curbside parking lot on this Friday morning (Sept. 26) at 8 am.

We didn't want to surprise you, and obviously we don't want our presence to complicate any removal work underway. On a more positive note, we would also clearly welcome the opportunity to talk with you or a contractor about the removal!

If you would like to talk, please feel free to call me at your convenience on my cell phone (713-775-8874). I'm largely free to talk today except between noon to 2:30, when I'm teaching classes. Thank you, and I hope that we'll have an opportunity to talk soon.
